

Appendix 7

Database model and table structure — for Swedish data

Final version 2.0

Mars 21, 2001

Harry Hietanen

National Land Survey of Sweden

Table 1: Swedish database model, table structure and the table view in the prototype for LMS.

The grey boxes (tables) are selected tables from the original database (see page 2).

The yellow boxes (4 tables in bottom) are for the prototype view selected from the grey tables below. These tables form the body of searchable data in the prototype. The explanations and more detailed information about the fields are described in Appendix 6 *Description of database – The register of historical maps and acts.*

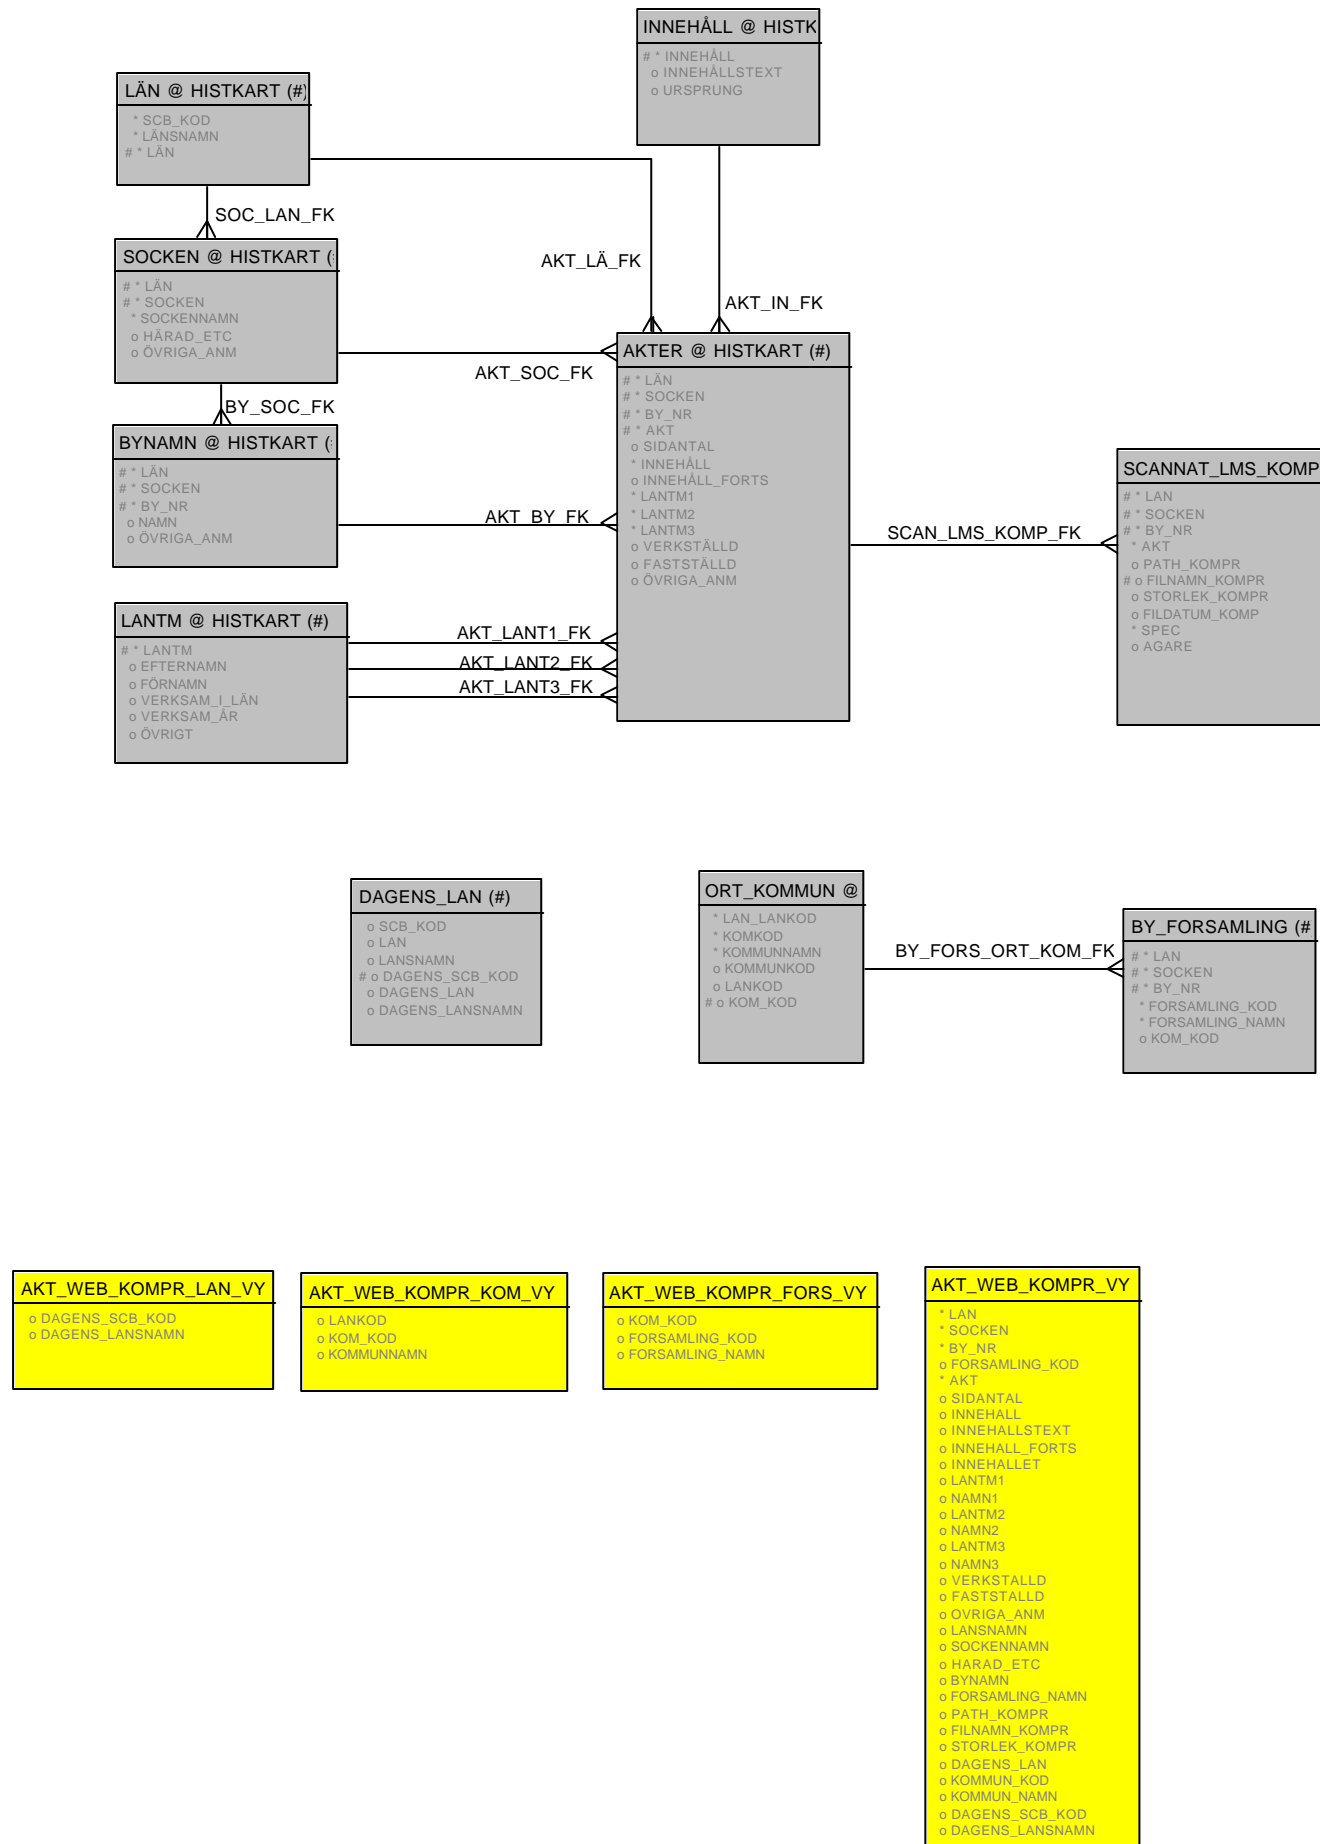

Table 2: Swedish original database model and table structure for LMS.

The explanations and more detailed information about the fields are described in Appendix 6 *Description of database – The register of historical maps and acts.*
